REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art to that of the instant invention are US 5747152 to Oka et al. and JP10017632 to Ishii et al. Oka teaches the use of urethane methacrylates for use in similar applications as that of the instantly claimed invention, but fails to teach or render obvious the applicants hard coat that comprises a copolymer of a (meth)acrylate compound having a fluorene structure and a urethane methacrylate compound having the structure specified by claim 1. Ishii teaches a process for forming a urethane methacrylate containing a fluorene group that satisfies the structure of the urethane methacrylate component required by claim 1, but does not teach further reacting this component with a methacrylate having a fluorene structure. There is no teaching or motivation in the prior art to modify either Oka or Ishii to arrive at the copolymer compound required by the instantly claimed invention.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
